Scrum

Release Plan

- Приемаме че първоначалният анализ е завършен и има ясна визия

- Целия проект бива завършен в рамките на един релийз

- 5 Sprints = 5 * 14 дни

Sprint:	Sprint 1	Sprint 2	Sprint 3	Sprint 4	Sprint 5
Цел:	Клиентски модул - основна функционалност	Модул за служители – основна функционалност	Завършен клиентски модул	Завършен модул за служители	Поправяне на бъгове

Sprint 1 – User Stories to work on

- User Registration
- Check available services
- Check current due amount
- Display personalized service suggestions
- Create contacts list

User Registration

Priority: 1

- As a customer of the mobile operator I want to be able to register as a user using my phone number as identification.

- Acceptance Criteria:
    - The system sends SMS with confirmation code.
    - User profile is created and user information stored.

Check available services

Priority: 2

- As a user I want to be able to check what additional services are available for my current subscription so that I may later purchase some of them.

- Acceptance Criteria:
  - Only services that are not currently used are displayed.
  - Only services that are available for the current customer are displayed.

Check current due amount

- As a user I want to be able to check what amount I owe to the mobile operator.

- Acceptance Criteria:
  - Correct information is displayed for each user.

Display personalized service suggestions

Priority: 4

- As a mobile operator owner I want personalized suggestions for services to be displayed while customers are using the system.

- Acceptance Criteria:
  - Displayed suggestions are based on the user's history.
  - Only services that are available for the current customer are displayed.

Create contacts list

Priority: 4

- As a user I want to be able to have a list of contacts.

- Acceptance Criteria:
  - When a contact is added/deleted/edited the correct information is written/deleted/updated in the database.
  - Contacts list can be displayed.
  - At least name and phone number must be specified to be able to save a contact.

Sprint 2 – User stories to work on

- Create report for customer
- Create report for a group(segment) of customers
- Activate service for customer

Create report for customer

Priority: 5

- As an employee I want to be able to create a report for a customer containing their activity for a given time period.

- Acceptance Criteria:
  - A report is generated and visualized.
  - The report contains the correct data based on user, start/end dates.

Create report for a group(segment) of customers

Priority: 6

- As an employee I want to be able to create a report for a group of customers containing summarized information about the customers.

- Acceptance Criteria:
  - Employees can chose what information is included.
  - Correct information is included and displayed in the report.

Activate service for a customer

Priority: 1

- As an employee I want to be able to activate a service for a customer.

- Acceptance Criteria:
  - List of available services for customer is displayed.
  - The service is activated.
  - Confirmation SMS is sent to the user.

Благодаря за вниманието!
